

AM I A GOOD CANDIDATE FOR MICROBLADING?

REQUIREMENTS BEFORE EYEBROW MICROBLADING:

- No Botox treatments should be done 3 weeks prior or 4 weeks after procedure
- No chemical peels 60 days before or after procedure (brows will peel quicker due to chemicals traveling under the skin)
- No Retinols/Retin-A or other anti-aging/acne creams, or serums containing acids as these will fade brows prematurely
- Do not work out or sweat heavily the day of the procedure (Or 2 weeks after)
- Do not tan or have a sunburned face the day of the procedure
- Do not take aspirin, niacin, vitamin E, or ibuprofen 48 hours before procedure
- No waxing days before procedure
- No alcohol or caffeine 24 hrs before procedure (may cause excess bleeding/pain sensitivity)

MICROBLADING IS NOT RECOMMENDED FOR ANYONE WHO IS OR HAS THE FOLLOWING:

- Sick with cold, flu, or sinus/respiratory infection
- Skin irritations including: sunburn, rash, eczema, shingles, acne, or psoriasis near the treated area
- Pregnant or nursing
- Under age 18
- Used Accutane in the past 12 Months
- Diabetes
- Epilepsy
- Undergoing chemo
- Prone to keloid scarring
- Pacemaker or major heart problems
- Had an organ transplant
- Transmittable blood disease, HIV or Hepatitis
